SKILLS

- ❖ **Languages:** Python, JavaScript, SQL, C/C++, Java, R, HTML5, CSS3, Dart, Assembly, LaTeX
- ❖ **Frameworks:** Flask, Angular, React.js, Node.js, Express.js, Redux.js, Django, Flutter, Bootstrap, Tailwind
- ❖ **Tools:** AWS, Docker, Kubernetes, Git/GitHub, MySQL, PostgreSQL, MongoDB, Linux/Unix, Android Studio
- ❖ **Libraries:** Scikit-learn, NumPy, Pandas, SQLite, Matplotlib, Seaborn, Plotly, Java Swing

EDUCATION

Bachelor of Science – BSc (Hons), Computer Science Co-op

Expected Graduation May 2027

Ontario Tech University, Oshawa, Ontario

- ❖ **cGPA:** 4.10/4.30 (A+) – President's List ('23-'25), In-Course Scholarship ('24-'25), Entrance Scholarship ('23)
- ❖ **Relevant Courses:** Programming Workshop, Computer Architecture, Data Structures, Scientific Data Analysis, Software Design, Software Systems, Statistics and Probability, Computational Science, Linear Algebra, Discrete Math

EXPERIENCE

Data Science and AI Development Intern

Sept 2025 – Present

Bravella Health, Toronto, Ontario

- ❖ Develop and deploy a real-time AWS SageMaker endpoint integrated with a Qwen3 Hugging Face model, leveraging Retrieval-Augmented Generation (RAG) to continuously train on 100+ new medical documents.
- ❖ Architect and maintain an AWS EC2 environment hosting an Angular frontend and Flask backend with Node.js and Nginx reverse proxy, delivering a secure, production-grade LLM web application for clinicians.
- ❖ Optimize cloud infrastructure in collaboration with an AWS IT Architect using EventBridge, Lambda, GPU tuning, and token management, improving model latency and cutting operational costs by over 50%.
- ❖ Manage version control and deployment workflows via Git/GitHub and VS Code, ensure data synchronization between S3 buckets and the model, and document system progress within an Agile development framework.

Car Washer

May 2021 – Present

Avis Budget Group, Ajax, Ontario

- ❖ Service and prepare 5–10 vehicles per shift, completing interior and exterior cleaning with high efficiency across various vehicle types to ensure customer satisfaction and rental readiness.
- ❖ Monitor and perform basic maintenance (tire pressure, oil, and fluid checks), manage inventory of cleaning supplies, and apply customer feedback to streamline workflows and improve operational performance.

UI/UX Designer and Mobile App Developer

Jul 2022 – Jul 2023

MY Voice Canada Organization, Milton, Ontario

- ❖ Engineered and published an Android mobile app for the Google Play Store using Flutter and Dart, contributing to frontend functionality, debugging, and version control via Git/GitHub, VS Code, and Android Studio.
- ❖ Spearheaded the UI/UX design in Figma and Miro, creating intuitive, user-friendly app layouts aligned with Agile sprint feedback and test-driven development practices.
- ❖ Collaborated in a 10-member cross-provincial team, coordinating user feedback, documentation, and timelines to ensure smooth coordination and on-time deliverables, earning recognition as Best Team of the Year.

PROJECTS

Personal Portfolio Website

Dec 2024 – Present

- ❖ Created a responsive portfolio website using HTML, CSS, and JavaScript, featuring interactive elements, FontAwesome toolkit library, FormSubmit backend API, and online deployment through GitHub Pages.
- ❖ Showcases key projects, including a full-stack car dealership system, an AI chatbot with REST API integration, a SpaceX launch success predictor, a real-time multiplayer trivia game, an email spam detection tool, and more.
